HET03

The plug in digital timer is a mobile unit that can be used wherever a wall receptacle is located. This unit has an LCD display used for input of schedules, multiple daily schedules and weekly/ weekend schedules. It also has an easy to use pushbutton override switch. Automatic timers such as these are used to schedule control of indoor/ exterior lighting, temporary security lighting, holiday lights, office machines and other types of equipment that are connected to plugs controlled by switches.

TESTING & CODE COMPLIANCE:

- UL/CUL listed
- ISO9001 registered manufacturing facility

MULTIPLE DAILY SETTINGS OPTIONS:

- All days of the week
- Individual days of the week
- 5 weekdays
- 2 weekend days

TYPICAL APPLICATIONS:

- Interior Vacation Lighting
- Exterior Lighting
- Seasonal Lighting
- Fans
- Sprinklers

Conforms to California Title 24 Requirements
